# PHARMACY SALES & PURCHASE ANALYSIS REPORT

Excel MIS Dashboard Review | Transaction data: 2023–2024

| | |
|---|---|
| **Prepared By** | **Dharanidevan** |
| **Total Sales Revenue** | ■7,150,609.17 |
| **Total Purchase Value** | ■3,595,099.30 |
| **GST Difference (Sales GST – Purchase GST)** | ■411,164.90 |
| **Gross Profit (as calculated in workbook)** | ■3,144,344.97 |
| **Gross Profit Margin** | 43.97% |

Prepared from the supplied Excel workbook and MIS Dashboard Specification. This report describes the workbook's recorded data and calculations; it does not independently verify the source transactions.

# 1. Executive Summary

The workbook consolidates **42,649 sales line records** and **1,093 purchase line records**. Sales span 02 Jan 2023 to 31 Dec 2024; purchases span 01 Jan 2023 to 29 Dec 2024. The Summary sheet reports sales of ■7,150,609.17 and purchases of ■3,595,099.30. Its calculated gross profit is ■3,144,344.97, with a margin of 43.97%.

## Key performance indicators

| KPI | Workbook value |
|---|---|
| Total sales revenue | ■7,150,609.17 |
| Total purchases | ■3,595,099.30 |
| Total sales GST | ■748,666.64 |
| Total purchase GST | ■337,501.74 |
| GST difference | ■411,164.90 |
| Gross profit (workbook formula) | ■3,144,344.97 |
| Gross profit margin | 43.97% |

## Dataset profile

| Measure | Sales data | Purchase data |
|---|---|---|
| Rows / line records | 42,649 | 1,093 |
| Distinct transaction IDs | 17,046 bills | 182 GRNs |
| Quantity total | 127,775 | 90,459 |
| Distinct customers / suppliers | 16 customers | 6 suppliers |
| Distinct products / categories | 25 products / 13 categories | — |

# 2. Sales Performance Analysis

## Monthly sales

**Mar** has the highest month-level sales (■624,115.58) and **Feb** the lowest (■553,444.42). The month labels follow April–March order. The month summary aggregates month names across the loaded data and does not separately split the two years.

| Month | Sales revenue |
|---|---|
| Apr | ■559,797.09 |
| May | ■600,251.43 |
| Jun | ■594,865.75 |
| Jul | ■623,150.63 |
| Aug | ■580,733.84 |
| Sep | ■604,187.39 |
| Oct | ■595,231.94 |
| Nov | ■612,666.21 |
| Dec | ■591,492.53 |
| Jan | ■610,672.36 |
| Feb | ■553,444.42 |
| Mar | ■624,115.58 |

## Quarterly sales

**Q2** is the highest quarter (■1,808,071.86); **Q1** is the lowest (■1,754,914.27).

| Quarter | Sales revenue |
|---|---|
| Q1 | ■1,754,914.27 |
| Q2 | ■1,808,071.86 |
| Q3 | ■1,799,390.68 |
| Q4 | ■1,788,232.36 |

# 3. Product and Category Analysis

## Sales by category

**Respiratory** leads with ■1,832,714.50 (25.63% of total sales). The next categories are Supplement and Antibiotic.

| Category | Sales revenue | Share of sales |
|---|---|---|
| Respiratory | ■1,832,714.50 | 25.63% |
| Supplement | ■1,052,731.63 | 14.72% |
| Antibiotic | ■1,019,685.64 | 14.26% |
| Antacid | ■751,002.35 | 10.50% |
| Cardiac | ■617,581.33 | 8.64% |
| Antidiabetic | ■544,324.34 | 7.61% |
| Topical | ■320,418.28 | 4.48% |
| Analgesic | ■249,062.39 | 3.48% |
| Ophthalmic | ■231,244.79 | 3.23% |
| Antihypertensive | ■227,975.82 | 3.19% |
| Thyroid | ■173,064.78 | 2.42% |
| Antihistamine | ■90,364.21 | 1.26% |
| OTC | ■40,439.11 | 0.57% |

## Top 5 products by sales

| Product | Sales revenue |
|---|---|
| Salbutamol Inhaler | ■959,412.43 |
| Azithromycin 500mg | ■596,970.11 |
| Cough Syrup 100ml | ■469,921.48 |
| Calcium + D3 | ■462,908.67 |
| Amoxicillin 500mg | ■422,715.53 |

## 4. Dashboard Review

The workbook contains four chart objects on the Dashboard sheet, matching the specification: Monthly Sales Trend (line), Sales by Category (doughnut), Quarterly Sales (bar), and Top 5 Products by Sales (column).

## 5. Key Business Insights

• Sales exceed purchases by ■3,555,509.87 before the GST adjustment.

• The workbook-calculated gross profit is ■3,144,344.97 and margin is 43.97%.

• Respiratory is the leading category by revenue (■1,832,714.50).

• Salbutamol Inhaler is the highest-sales product in the workbook's Top 5 list (■959,412.43).

• Q2 is the strongest quarter by sales.

## 6. Recommendations

• Review replenishment for high-revenue products and categories, while considering stock-on-hand and expiry data.

• Check low-performing categories before changing purchasing decisions; compare both revenue and margin.

• Add a financial-year selector and ensure all KPIs and charts respond to the selected year.

• Display the reporting period and last refresh timestamp on the dashboard.

• Validate GST and gross-profit definitions with the business owner/accountant before financial reporting.

## 7. Data and Specification Notes

The specification overview states 10 KPIs, while the supplied pages detail five KPI definitions. The workbook Summary sheet exposes five KPI calculations and the Dashboard sheet contains four chart objects. The other five KPI definitions are not available in the supplied specification extract.

The monthly summary groups month names across the loaded data period. Since the sales data spans 2023–2024, confirm that a selected financial year is applied rather than combining both years. The GST and profit calculations in this report reproduce the workbook's formulas and are not an independent tax/accounting validation.

## 8. Conclusion

The Excel project summarizes pharmacy sales, purchases, GST difference, profitability, product performance, category mix, and quarterly trends. It records ■7,150,609.17 in sales and ■3,595,099.30 in purchases, with workbook-calculated profit of ■3,144,344.97 and margin of 43.97%. Align the dashboard filters and KPI count with the full MIS specification and validate financial formulas before operational use.
